PROFESSIONAL EXPERIENCE

Associate Software Developer

Vianaar Home pvt ltd | July 2024 to Present
0-15 days notice period

- Lead the development of a real estate booking platform using Node.js and Angular, increasing lead conversions by 40%.
- Designed scalable APIs with real-time data sync for property listings, booking flows, and user dashboards.
- Integrated Cashfree for secure payment handling with transactional logging and failover systems.
- Reduced API latency by 35% in The Blue Kite project by optimizing database queries and implementing asynchronous operations.

Backend PHP Developer

RSS Infotech pvt ltd | October 2023 to June 2024

- As a PHP Backend Developer at RSS Infotech Pvt Ltd (Oct 2023 – June 2024),
- Developed API-driven e-commerce and LMS platforms using CodeIgniter and Core PHP.
- Engineered reusable authentication, filtering, and multi-role access modules.
- Integrated dynamic payment workflows across recharge, event ticketing, and course purchases.
- Worked on auction systems, medical listings, and real-time user service modules.

PHP DEVELOPER

BRIGHTCODE PVT LTD | July 2022 - June 2023

- Delivered custom web solutions for educational institutions, NGOs, and startups using Laravel and CMS platforms.
- Built card.oflep.com: a dynamic card generator with QR integration and PDF export.
- Developed TG Education, a portal supporting student admission, payments, and certificate automation.
- Integrated WhatsApp messaging and digital payment systems (PhonePe, Cashfree) for seamless communications.

HOBBIES

- Exploring backend frameworks, system design, and building scalable APIs.
